

CE TANG YUK Now Represents MacroAir Fans

1. Energy Efficient

Runs for pennies a day and drops the effective temperature by 8°F. Saves 30% on cooling and 20% on heating costs.

2. Zero Maintenance

No gears, no oil, no friction thanks to our gearless motor.

3. Convenient Controller

Speed, light, and direction easily adjusted for your entire network.

4. Project Support

Customized solutions and local service provided by our strong distribution network.

5. Basically Silent

Gearless design makes our fans whisper quiet—literally quieter than a human conversation.
